Summary

Frontend Engineer with 4+ years of experience building scalable SaaS, analytics, and real-time web applications using **React.js**, **Next.js**, and **TypeScript**. Skilled in frontend architecture, reusable design systems, and performance optimization for high-traffic applications. Proven ability to collaborate with cross-functional Agile teams to deliver production-grade features with strong UX, scalability, and maintainability.

Experience

Software Engineer

Mar 2025 – Present

Rapidops Inc., Ahmedabad

- Built scalable SaaS web applications using **React.js (Vite)**, **TypeScript**, and **Ant Design**, improving frontend performance by **30%** through code splitting, lazy loading, and optimized bundling strategies.
- Shipped **10+ production features** with product, design, backend, and QA teams, improving UX and reducing UI inconsistencies.
- Drove frontend architecture and reusable component patterns, and used **GitHub Copilot**, **OpenAI Codex**, and **Augment AI** to speed up delivery.

Software Developer

Sep 2023 – Jan 2025

Incipient Infotech, Ahmedabad

- Developed responsive applications with **React.js**, **Next.js**, and **TypeScript**, improving platform performance by **25%** and reducing page-load time by **15%**.
- Delivered **5+ client projects** end-to-end by translating business requirements into scalable solutions, maintaining a **98% client satisfaction rate**.
- Built reusable UI libraries and optimization workflows that reduced development effort by **15%** and improved maintainability.

React.js Developer

Apr 2022 – Sep 2023

Quantex Solutions, Remote

- Developed modern React applications and built **15+ reusable UI components**, standardizing frontend architecture across projects.
- Improved application performance by **20%** using lazy loading, code splitting, and optimized **Redux** state management.
- Delivered responsive, accessible interfaces for **2+ client projects** in Agile teams.

Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Frontend Technologies:** React.js, Next.js, Redux, Redux Toolkit, Flutter, Tailwind CSS, Material-UI (MUI), Ant Design, Bootstrap
- **Tools & Platforms:** Git, GitHub, Bitbucket, Vite, Webpack, Postman, Figma, GitHub Copilot, Augment AI
- **Core Skills:** Responsive Web Design, Performance Optimization, Code Splitting, Lazy Loading, REST API Integration, SSR, SEO Optimization, Accessibility (WCAG), Real-Time Applications, Component-Based Architecture, Agile Methodology

Projects

IPO Analytix

- Built a cross-platform IPO analytics platform using **Flutter** and **React.js (Vite)**, delivering real-time market dashboards, dynamic chart visualizations, and scalable responsive UI architecture with optimized rendering performance.

Business for Growth

- Developed a business management platform using **Next.js**, **Redux**, and **REST APIs** with workflow automation, analytics dashboards, reusable components, and optimized API integration using **Material-UI**, improving responsiveness and UI consistency.

Game Racers

- Built a blockchain-enabled gaming platform using **Next.js** and **Unity** with secure token-based transactions.
- Implemented gamification and frontend performance optimizations to improve engagement and gameplay smoothness.

DIIBS

- Developed a real-time restaurant management platform with **React.js**, **Redux**, and **REST APIs** for orders, dashboards, and operations.
- Integrated **Stripe Connect** and built a dynamic bidding system to improve payments and user engagement.

Donate-Pay

- Built a FinTech donation platform using **React.js**, **Redux Toolkit**, and **Bootstrap** with secure donation workflows.
- Integrated **Stripe Connect** and redesigned key user flows, reducing drop-off and improving conversion.

Education

L.D. College of Engineering, Ahmedabad

2016 – 2019

Bachelor of Engineering – Computer Engineering CGPA: 7.3

C.U. Shah University, Surendranagar

2013 – 2016

Diploma in Computer Engineering CGPA: 8.5
